FINANCE MANAGEMENT MANUAL

APPROVED BY THE UNIVERSITY COUNCIL

ON MONDAY 2ND SEPTEMBER, 2019

FOREWORD

Kabale University has grown steadily since its establishment as a public university in 2015. It has progressively build systems, structures and policy tools for good governance. The Finance Management Manual is one of the tools that have been developed to support good governance systems at the University.

The Vision of Kabale University is: *“A distinct, vibrant People centred University in the Great Lakes Region and beyond”* while it’s Mission is: *“To excel in generation and dissemination of relevant knowledge and skills development for lifelong learning and community service”*.

The quality of its graduates will continue to be the best representation of its commitment to live up to its vision, mission, core values and motto, and become one of the best Universities in the region.

The University Council is indeed glad to have approved the “Kabale University Finance Management Manual, 2019” which will guide and streamline the management of financial and operational resources of the university.

I wish to thank the University Council, Management, staff and students for the good work well done in the development of this Policy Manual.

I am glad to pronounce that this Manual was duly approved by the University Council under **Minute No 158.23/15/C/2019** and is operational with immediate effect.

Hon. Manzi Tumubweinee
Chairperson, University Council

ACKNOWLEDGEMENT

Kabale University is committed to good governance by, among other things, developing policy tools to help in managing its resources. The approval of this financial Manual by the University Council is, therefore, an important step towards the achievement of good governance and the actualization of the University vision and mission.

This Finance Management Manual will be instrumental in guiding the University Council, University Management, staff and the Students Guild in managing the affairs of the University. The various regulations, rules, guidelines, systems, processes and procedures outlined in this Manual are intended to give guidance for compliance by all stakeholders to ensure that the ethical conduct expected of the institution is upheld.

I therefore sincerely thank the University Council for approving this Finance Management Manual as one of the Councils functions in ensuring continued commitment to good governance and policy guidance. In the same vain, I wish to acknowledge the various University stakeholders including the offices of the University Secretary and the University Bursar, the members of the University Management Committee, the Finance, Planning and Resource Mobilization Committee and the University Council for their valuable input during the developing of this important document.

I wish to strongly encourage all the University stakeholders to keenly read, uphold, protect, implement and comply with this Manual in order to strengthen University's good governance in general and financial management in particular.

Prof. J. C. Kwesiga
VICE CHANCELLOR

INTRODUCTION

1.0 Background Information

Kabale University (KAB) was established as a Community University owned by the people of Kigezi region in 2002 with a total enrolment of 42 students. The region currently comprises of the districts Kabale, Kanungu, Kisoro, Rubanda, Rukiga and, Rukungiri. The University (KAB) was granted a Charter (Certificate No. UI.CH.008) on 29th September 2014. In July 2015, Kabale University became a Public University in Uganda under Statutory Instrument No. 36 of 16th July 2015 in accordance with The Universities and Other Tertiary Institutions Act, 2001 (as amended). Presently (in 2019) the total enrolment of the University is over 3000 students, coming from all parts of Uganda, and Kenya, Tanzania, Rwanda, Burundi, Democratic Republic of Congo and South Sudan. The University currently offers fifty three academic programmes, of which 15 are Diploma, 26 are Undergraduate and 12 are Postgraduate.

Kabale University Main Campus is located at Kikungiri Hill in Kabale Municipality, Kabale District where it owns land amounting to 50.808 acres, and is in the process of acquiring additional land for expansion of its programs and activities. Kabale district is located in the South West of the Republic of Uganda and lies between 29045I and 30015I East Longitude and 1000I and 1029I South Latitude. The district shares borders with the Districts of Rubanda to the West, Rukiga to the North East and the Republic of Rwanda to the South.

Kigezi region is cherished by many tourists. It is a famous centre of Endemism. The region boasts of a high and unique biodiversity including, the mountain gorillas of Mgahinga and Bwindi forests and several varieties of butterflies and birds. The biodiversity is complemented by other unique features such as the rift valley, volcanoes, hilly terrain, not to mention the cool and energizing climate.

1.1 The University Vision and Mission

Kabale University is guided by the following Vision, Mission and Core Values:

- a) **The University Vision is:** A distinct, vibrant people centred University in the Great Lakes Region and beyond.
- b) **The University Mission is:** To excel in generation and dissemination of relevant knowledge and skills development for lifelong learning and Community Service.

1.2 The University Financial System

Kabale University is a unique Institution enjoying the status of being the first ever institution of its kind in Uganda, to have transitioned from a Private Community Institution to a Public Institution, as well as a Chartered Institution. As a rapidly growing organization, the University would like to develop and implement sound financial systems that comply with internationally accepted accounting standards generally applicable to Public Sector Organizations. The financial system at KAB encompasses all the personnel, resources, systems and activities that work together to carry out in an effective manner the financial and accounting functions of the University. This manual seeks to streamline the functions of all the elements within this system to ensure that all the activities of the University are carried out in a systematic manner so as to safeguard university assets as well as facilitate and enhance financial reporting. The implementation of financial and accounting systems is therefore designed in such a way as to ensure that:

- a) All transactions shall be executed only upon appropriate approval and authorization;
- b) Valid transactions shall be recorded accurately to permit preparation of financial statements that conform to International Accounting Standards; and
- c) All assets shall be safeguarded in a healthy control environment.

1.3 The Purpose of this Manual

The purpose of this Manual shall be:

- a) To provide guidelines to all staff at the University, particularly

the Finance and Accounting staff for the orderly execution of their respective responsibilities for the purpose of preparing the University's financial statements.

- b) To provide sets of operating and reporting financial standards and practices which comply with internationally accepted accounting standards, including the International Public Sector Accounting Standards (IPSAS).
- c) To ensure that key financial guidelines and requirements of international best practices for the not-for-profit sector are taken into account.
- d) To set out the basic framework of systems that will provide adequate levels of internal controls including budgetary control.
- e) To ensure and promote the principles of accountability and transparency generally referred to as good corporate governance code.

1.4 Authority of the Manual

In developing this manual, consideration was given to all applicable IAS, IPSAS and the requirements of the PFMA 2015 (as amended), the Public Finance Management Guidelines, 2016 and the Treasury Accounting Instructions, 2017. All staff of the university shall comply to the principles outlined below in using the manual:

- a) The manual has the approval of the University Council. Failure to comply with any guidelines and procedures contained in this manual may render an employee liable to disciplinary action in accordance with the Human Resource Policy of the University and/or other applicable laws of Uganda. A plea of ignorance will not be acceptable as an excuse for non-compliance.
- b) If for any reason a given guideline or procedure cannot be implemented, it would be incumbent upon the concerned official to notify the immediate supervisor in writing detailing the circumstances and submitting an alternative guideline or procedure to be discussed by management for the subsequent approval by the University Council. Management may endorse

or reject the exception and the procedure to be valid as a replacement.

1.5 Scope of the Manual

This manual is intended to cover all aspects of the financial control environment of Kabale University. It seeks to touch on all areas of the system to instill order, direction and focus for efficient and effective performance at all levels of management. The scope of the manual are outlined below:

- a) The first chapter introduces the entire work, outlining its purpose and objectives, as well as emphasizing the necessity for updates and revision.
- b) Chapter Two sets forth the guiding principles, detailing the relevant concepts and conventions of the financial system.
- c) Chapters three through thirteen sets out the guidelines, procedures and framework for all aspects of the system. They establish points of reference for all the areas of the system consisting of Financial management operations and rules, budgeting and budgetary process, cash and treasury management, expenditure control management, plant property and equipment, procurement and inventory management, payroll management, grants management, chart of accounts and operating software, financial reporting and audit framework.

1.6 Updates and Revision

- a) This is a living manual which will continuously be adapted and aligned to the environment in which the University operates. The manual shall therefore be revised from time to time with the approval of the University Council.
- b) Suggestions and ideas on how the manual could be revised or updated shall be forwarded to the University Bursar who shall liaise with the University Secretary to effect the necessary identified changes for the approval of the University Council.

1.7 Effective Date of implementation

Implementation of this manual shall be effective from 2nd September 2019 after the University Council's approval on 1st September 2019.

CHAPTER TWO

GENERAL FINANCIAL MANAGEMENT GUIDING PRINCIPLES AND POLICIES

2.0 Introduction

This chapter presents the general guiding principles and procedures that govern the accounting treatment and the general financial management systems and procedures at Kabale University.

2.1 Accounting method

The University currently applies a modified cash accounting system but shall, with time, move towards the accrual basis of accounting for the entity wide financial statements during the fiscal years. The University shall adopt the modified cash basis for specific reports. This basis recognizes income when earned and expenses when incurred.

2.2 Foreign currency transactions

The University shall translate all transactions in foreign currency into Uganda Shillings at the rate of exchange prevailing at the time and date of transaction.

- a) Year end balances in foreign currency are translated into Uganda Shillings at the year-end exchange rate.
- b) All realized gains and/or losses shall be recognized in the statement of financial performance while unrealized gains and/or losses shall be recognized in the statement of financial position.

2.3 Revenue recognition

- a) The University shall recognize grants as revenue when the grants are earned or upon receipt of the funds into the University's Bank account whichever comes earlier or upon fulfillment of the requirements agreed on in writing with each donor agency.
- b) Grants represent support with donor-imposed conditions and could be restricted or unrestricted. Unrestricted grants shall

be received in support of agreed research and development agenda and for general administration.

- c) Restricted grants shall be received in support of specified projects or activities mutually agreed upon between the University and donors.

2.4 Matching principle

The matching principle states that revenue is reported when earned and expenses are reported as incurred and should be matched against revenue, even if no cash outflow has occurred. This is the rationale for the accrual basis of accounting.

2.5 Prudence

- a) Prudence is the inclusion of a degree of caution in the exercise of the judgments needed in making the estimates required under conditions of uncertainty, such that assets or revenue are not overstated and liabilities or expenses are not understated.
- b) The prudence concept states that revenue and income are not anticipated, but are recognized by inclusion in the statement of financial performance only when realized in the form of cash or other assets or when the ultimate cash realization can be assessed with a reasonable degree of certainty.
- c) All known liabilities shall be provided for if their amounts are known with certainty or are a best estimate in the light of the information available.
- d) Where the matching concept is inconsistent with the prudence concept, the latter shall prevail.

2.6 Accrual principle

The University shall use and apply the accrual basis of accounting systems. It is a basis of accounting where transactions and other events are recognized when they occur (irrespective of when cash or its equivalent is received or paid). The transactions and events are recorded in the accounting records and recognized in the financial

statements in the periods to which they relate. The elements recognized under the accrual accounting are assets, liabilities, net assets/equity, revenue and expenses. This is to ensure that revenue and cost shall be:

- a) Recognized when earned or incurred, not necessarily when money is received or paid);
- b) Matched with each other so far as their relationship can be established or justifiably estimated; and
- c) Dealt with in the statement of financial performance for the period to which they relate.

2.7 Historical Cost Principle

The financial statements of the University shall be prepared under the historical cost convention and in accordance with International Public Sector Accounting Standards (IPSAS). In this regard:

- a) Historical cost implies that the carrying value of assets shall be based on their purchase price. Where the historical cost convention is departed from, this shall be stated in the accounting policies, specifying the nature of departure.
- b) However, grants in kind received by the University such as fixed assets or services received from donors shall be recorded at the fair values of the asset on the date of the transaction or actual fees paid by donors for such services, respectively.

2.8 Going Concern

The Financial statements shall be prepared on the assumption that the University is a going concern and would continue in operation into the foreseeable future. In this regard:

- a) It shall be assumed that the institution has neither the intention nor the need to liquidate or curtail materially the scale of its activities unless there will be an intention to liquidate the entity.
- b) If the intention to liquidate the entity exists, the financial statements may have to be prepared on different basis and, if so, the basis used shall be disclosed.

2.9 Consistency

The University shall apply the consistency principle in preparation of its financial reports. The consistency concept explains the fact that there shall be consistency in the methods and bases for the treatment of similar accounting variables: In this regard, consistency shall be applied:

- a) Within each accounting period
- b) from one accounting period to the other

Where the University decides to depart from the consistency principle for any reasons, such departure shall be disclosed in the notes to the accounts together with the reasons for the departure.

2.10 Fair value principle

The University shall present its assets in the statement of financial position at their fair values. In this regard:

- a) The fair value of any asset shall be the amount at which the asset could be bought or sold in a current transaction between willing parties.
- b) Prevailing market prices shall also be used to determine fair value.

2.11 Disclosure principle

The University shall provide as much disclosure in the accounts as possible to provide adequate information to the users of the financial information.

2.12 Accounting policies

Accounting policies shall be the specific basics judged by the University to be most appropriate to its circumstances and adopted for the purposes of preparing financial statements.

- a) Accounting policies applied shall be based on International Public Sector Accounting Standards. In the absence of an International Public Sector Accounting Standard that

specifically applies to a transaction, other event or condition, management shall use its judgment in developing and applying an accounting policy that results in information that is reliable and relevant to the decision-making needs of users of the financial statements:

- i. represent faithfully the financial position, financial performance and cash flows of the entity;
 - ii. reflect the economic substance of transactions, other events and conditions and not merely the legal form;
 - iii. are free from bias;
 - iv. are prudent; and
 - v. Complete in all material respects.
- b) Where circumstances permit more than one accounting policy, the choice of policy can significantly affect the University's reported results and financial position. Management shall, therefore, ensure that:
- i. The view presented can be properly appreciated by clarifying the policies followed in dealing with significant items.
 - ii. The choice and disclosure of accounting policies are carefully made to promote the appreciation by users of the University's financial statements.

CHAPTER THREE

 - ii. Ensure that the name, details and date have been entered correctly. All post-dated cheques and cheques which have different amounts entered in words and figures shall be referred to the drawer for amendments.
 - iii. Direct credit transfers to the University's bank accounts shall be recorded from the bank statement.
 - iv. Acknowledgement of receipt shall be made.

5.7 Setting and management of University fees and charges

- a) The University Council shall recommend approval and/or review of all students' fees and charges.
- b) On approval of the students fees, charges and other revenues, the management shall put in place procedures for their collection as per the provisions of the budget estimates.
- c) All revenues for the University shall be deposited by the revenue payers themselves on the authorized accounts through the prescribed electronic system.
- d) Under no circumstances shall a University staff or other person be allowed to receive cash from any student, contractor,

- creditor, agent, or other person on behalf of the University.
- e) Every person or student who is required to pay any money to the University shall bank the money using the prescribed official electronic revenue collection system.
 - f) Students shall not be allowed to sit any examination(s) without completing all the University fees.
 - g) University students and/or their leaders are prohibited from getting involved in any revenue collection process on behalf of the University.
 - h) There shall be Students' Guild fees and Sports fees which shall be set and reviewed by the University Council from time to time. The Students Guild and Students Sports fees shall be specifically for funding Students Guild activities and Students Sports activities respectively and shall be collected and accounted for in the same manner as all other fees and revenues of the University.

5.8 Assessment of financial flows and commitment

Realistic assessment of the financial inflows and commitments shall be carefully employed to project the net cash flows from the short to the medium term to prevent any possible shortage of funds that results into operational inefficiencies.

5.8 Prepayments

All prepayments shall be classified under receivables. All expired portions of the amount pre-paid shall be expensed by passing a Journal Voucher to the appropriate accounts. The unexpired portion shall be carried to the Statement of Financial Position and classified under receivables.

5.9 Cash flow statement

The following definitions shall apply in the preparation of the statement of cash flows of the University in their annual financial reports:

- a) Cash and cash equivalents means the cash on hand, cash at bank, demand deposits and cash equivalents where cash equivalents are defined as short term, highly liquid

investments, with maturities of less than three months from the date of purchase, that are readily convertible to known amounts of cash and which are not subject to a significant risk of change in value.

- b) Operating activities shall include all transactions and other events that are not investing or financing activities. They shall include but not limited to the following:
- i. Cash receipts from levies and fines;
 - ii. Cash receipts from charges for goods and services provided by the entity;

CHAPTER NINE

PAYROLL MANAGEMENT

9.0 Introduction

Chapter 9 provides for systems, procedures, processes, control measures and guidelines for planning and managing the University payroll.

9.1 Preparation of Payroll

The Director Human Resource shall prepare a Payroll before the 6th day of every month using a payroll that has been authorized by the Ministry of Public Service (MOPS) and approved by the Accounting Officer.

a) Integrated Payroll and Pension System (IPPS)

- i. It is an enterprise-wide integrated, computerized and efficient human resource management information system used by Public Sector entities to perform human resource management activities from recruitment to separation, including payroll and pension processing.
- ii. The system is designed to improve, automate and enhance human resource management processes including pensions and payroll.
- iii. The system seeks to improve the quality of human resource information and provide timely and accurate information for human resource management decisions, available to decision makers within the Public sector.
- iv. It improves the effectiveness and efficiency in transactional services such as processing and payment of salaries directly to employees account with appropriate deductions and remittances of third party

- payments.
- v. It facilitates and enhances the integration with other financial management systems such as the IFMS thereby avoiding duplication of systems and saving resources.
 - vi. The preparation of the payroll shall be in conformity with the provisions under the IPPS.

b) Payroll Deductions and remittances

- i. Pay As You Earn (PAYE) shall be deducted from staff salaries, where applicable, and shall be paid to Tax authority not later than 15th of the subsequent month in line with the prevailing tax rates.
- ii. For all applicable Ugandan employees, 5% and 10% of their basic salary shall be deducted as contributions from the employee and the employer respectively and paid to the Social Security Fund (NSSF) before the 15th of the Subsequent month.
- iii. Where a member of staff has taken a salary advance, there shall be appropriate deductions to that effect before payment of his/her salary.

c) The payroll shall have columns for the following:

- i. IPPS Number
- ii. Staff Name
- iii. Staff TIN Number
- iv. Staff monthly gross salary
- v. Staff 5% NSSF Contribution, where applicable

The payroll shall be reviewed by the Head of Human Resources and

approved by the Accounting Officer

9.2 Payment of Salaries, wages and allowances

All staff salaries and allowances shall be:

- a) Paid by the 28th day of every month.
- b) Payment of salaries shall be done by direct bank transfers on the basis of the details submitted by members of staff to the Head of Human Resources.
- c) Part-time teaching employees' payments shall be made after teaching the assigned modules, upon confirmation by the relevant Academic Head of department/Faculty Dean and after clearance by the Academic Registrar.
- d) Volunteers, interns and temporary staff may be paid as shall be approved by the University Management Committee and authorized by the Accounting Officer, provided that funds shall have been budgeted for that purpose.
- e) The Director Human Resources shall prepare monthly pay slips for all staff.

9.3 Funding of the Payroll

The Government of Uganda fully funds the University Payroll. Based on the number of staff employed by the University, the total fund required shall be determined from year to year. Any projected staff recruitment shall be submitted to Government to enable review of staff funding levels.

9.4 Staff Salary Loans

The University shall have memoranda of understanding with various banks where staff of the University can obtain salary loans. The Director Human Resources shall analyze the staff payroll accounts, case by case to advise the accounting officer on the eligibility of the staff for the salary loans. In the management of staff salary loans, the University Administration shall:

- a) Certify that the staff member concerned is a duly employed staff of the University.
- b) Ensure that the staff member applies for a salary loan from

- the bank where his/her salary is currently paid.
- c) Ensure that the staff member does not change his/her bank account for the period the salary loan is being serviced.
 - d) Not guarantee any salary loans for any staff and shall not be held responsible for any loan default by the staff member whatsoever.
 - e) Notify the relevant banks of any vacation of employment with the university any staff with loans to enable those bank to

take appropriate action.

CHAPTER TEN

CHART OF ACCOUNTS AND OPERATING SOFTWARE

10.0 Introduction

Chapter 10 provides for systems, processes and procedures and guidelines for management of chart of accounts and the relevant accounting software.

10.1 Chart of Accounts

- a) The University shall maintain consistency of its financial reporting structure by utilizing a professionally developed chart of accounts structured in conformity with the IFMIS.
- b) In the event that new account codes are required to be added to enhance financial reporting or meet specific donor requests, Accounting Officer shall notify the Accountant General for approval of the additions/modifications.
- c) The University shall use the chart of Accounts (COA) approved or issued by the Accountant General (AG).

10.2 Data security and Backups

Regular backups of the system shall be handled by the Ministry of Finance Planning and Economic Development to ensure maximum security of the software and information contained therein.

10.3 Objectives of the accounting system

The objectives of the accounting system shall be to:

- a) Record the assets, liabilities, income and expenditure of the University
- b) Provide information to management to assist them in running the institution's activities on a day to day basis
- c) Assist the preparation of financial reports.
- d) Assist the University Bursar in managing implementation of approved interventions within the approved appropriations

- under their control
- e) Provide objective yardsticks for performance evaluation of faculties/departments and employees
- f) Enable management to identify reasons for adverse variance to facilitate remedial measures

10.4 Basic recording and books of accounts

Each individual transaction shall be processed in a double entry accounting system through one of the following computerized modules:

- a) Accounts payable module
- b) Cashbook module
- c) General ledger module
- d) Fixed asset module

10.5 Accounts receivable module

- a) The general ledger shall be the principal book of account of the University. It is where all transactions shall be recorded either in detail or in summary totals.
- b) The general ledger shall contain accounts which show the totals of transactions that are recorded in detail in the subsidiary ledgers.
- c) All postings to the general ledger shall be made from journal vouchers. These shall either be standard journal vouchers, for items which occur regularly by month; or non-standard journal vouchers for items that are exceptional or of infrequent occurrence.
- d) Postings may also be carried out from totals derived from the computerized cash book module, accounts payable module and fixed asset register module.

10.6 Integrated Financial Management System (IFMS)

The Integrated Financial Management System (IFMS) is an accounting system that tracks financial events and summarizes financial information. It is an accounting system configured to operate

according to the needs and specifications of the environment in which it is installed.

The IFMS uses information and communications technology in financial operations to support management, budget decisions, fiduciary responsibilities, preparation of financial reports and statements. IFMS refers to the computerization of Public Financial management (PFM) processes from the budget preparation and execution to accounting and reporting.

A comprehensive well integrated system shall:

- a) Provide timely, accurate, and consistent data for management and budget decision-making;
- b) Support government-wide as well as agency-level policy decisions;
- c) Integrate budget and budget execution data, allowing greater financial control and reducing opportunities for discretion in the use of public funds;
- d) Provide information for budget planning, analysis and government-wide reporting;
- e) Facilitate financial statement preparation; and
- f) Provide a complete audit trail to facilitate audits.

10.7 Implementations of IFMS

Notwithstanding the provisions of this Manual, the University shall implement IFMS and any other financial management systems in

accordance with the policy of government.

CHAPTER ELEVEN

FINANCIAL REPORTING

11.0 Introduction

This Chapter provides for the systems, processes, procedures and guiding principles for managing financial reporting.

11.1 Presentation and Compliance with IPSAS.

To comply with the provisions of this manual, the University shall ensure that:

- a) The financial statements present fairly the financial position, financial performance and cash flows of the entity;
- b) The financial statements comply with all the requirements of each applicable International Public Sector Accounting Standards (IPSAS);
- c) Where the financial statement complies with other Standards such as International Financial Reporting Standards (IFRS) in situations where there are no specific IPSAS, management shall disclose this fact;
- d) In the extremely rare circumstances in which management concludes that compliance with a requirement of an IPSAS would be so misleading that it would conflict with the objective of financial statements set out in IPSAS 1, Presentation of Financial Statements, and where the relevant regulatory framework requires, or otherwise does not prohibit such a departure the University shall ensure the following have been disclosed:
 - i. That the financial statements fairly present the University's financial position, financial performance and cash flows;
 - ii. That the University has complied with applicable IPSASs except that it has departed from a particular

requirement in order to achieve a fair presentation.

11.2 Qualitative Characteristics of Financial Statements

These are the attributes that make the information provided in the financial statements useful to users. The principal qualitative characteristics shall be;

- a) Objectivity – Financial accounting system shall be based on actual, verifiable events and should be reported in an unbiased manner;
- b) Relevance - financial accounting statements shall provide relevant information, which is responsive to the stakeholders' information needs;
- c) Reliability – In order for financial accounting statements to be reliable, some assurance must exist that the statements do in fact represents what they purport to represent;
- d) Comparability – The conduct of comparative analyses between accounting periods constitutes one of the major characteristics assumed for the stakeholders of financial accounting. Comparability calls for like events to be reported in the same manner. When a change is made, its nature, effect and justification must be explained;
- e) Entity concept – Financial accounting statements and records pertain to specifically defined business entity. The entity concept directs that the accounting records reflect only the activities of the business;
- f) Unit of measurement – The common denominator is money. The reporting currency is the Uganda shillings;
- g) Materiality – The concept states that any amount or transaction that has significant effect on the financial statements should be recorded and reported correctly; and
- h) Accounting period – The financial accounting process provides information about the economic activities of the University for the specified time periods.

11.3 Notes and Supplementary Schedules

- a) The financial statements shall contain notes, supplementary

schedules, and other information to make them meaningful to the end users.

- b) They shall contain information that is relevant to the needs of users about the material risks and uncertainties affecting the institution and any obligations not recognized in the statement of financial position, including contingent liabilities.

11.4 True and Fair View

- a) The financial statements of the University shall give a true and fair view of the state of affairs, the financial performance, financial position and cash flows for each financial period.
- b) The University Bursar shall be responsible for ensuring that the financial statements are prepared in this manner. The University shall apply the accounting assumptions and concepts described in this section on the appropriate IPSAS, which would then result in a true and fair view of the financial statements prepared.
- c) Any material non-compliance, including any deviations from an IPSAS, and the effect of any such non-compliance shall be disclosed in the financial statements as notes.

11.5 Communication of Standard Accounting Guidelines

The University Bursar, in consultation with Deans of Faculties, Academic/Administrative Heads of Department and Affiliated Institutions shall issue standard accounting guidelines from time to time in order to classify and standardize accounting policies and procedures which are specific to the University operations.

11.6 Common Information in Financial Statements

The University Bursar shall be responsible for the preparation of the annual financial statements. This shall be reviewed by the Accounting Officer and approved by the Accountant General.

A complete set of financial statements according to IPSAS 1 shall comprise:

- a) A statement of financial position;

- b) A statement of financial performance;
- c) A statement of changes in net assets/equity;
- d) A cash flow statement;
- e) A statement of comparison of budget and actual amounts either as a separate additional financial statement or as a budget column in the financial statements; and
- f) Notes, comprising a summary of significant accounting policies and other explanatory notes;
- g) Format Used;
- h) The formats for the preparation of the statements of financial performance, statements of financial position, cash flow and notes shall be as set out in the financial reporting guidelines issued by the Accountant General from time to time.

11.7 Monthly and Annual Reporting Procedures

There shall be reporting procedures subdivided into (a) Monthly procedures and time table and (b) End of year reporting.

a) Monthly Procedures and Time Table

The following procedures shall be followed in the preparation of monthly reports:

- i. The University Bursar will use tools aimed at ensuring that monthly reports are ready for presentation to Finance Management Committee not later than 10th of every month following the end of the relevant month.
- ii. For each month a complete set of management information reports, which include the following listed below, shall be required by the 10th of the following month:
 - monthly management accounts;
 - budgetary variances;
 - project reports; and
 - Notes and supporting schedules.
- iii. As far as the financial statements are concerned it is a standard requirement that these shall be completed

- by 15th day after the end of each Quarter.
- iv. The University Bursar may circulate other guidance notes to Faculties, Heads of Academic/Administrative Departments as they become necessary for the preparation of the monthly accounts and reports.

b) End of Year Reporting

- i. Prior to the end of the financial year, the University Bursar shall prepare for submission of accounting returns and other financial statements as per the Public Finance Management Regulation, 2016.
- ii. The annual accounts shall be completed by 31st August following the end of the financial year.
- iii. Once the trial balance has been extracted correctly, the University Bursar shall prepare the statutory accounts in accordance with International Public Sector Accounting Standards. He/she shall ensure that the statutory accounts are completed and are ready for audit by the Office of the Auditor General as provided for in section 15 of the National Audit Act, 2008.
- iv. After the audit report, the University shall keep all documents pertaining to all audited accounts for at least 7 years, after consultation with the Office of the Auditor General.

11.8 Financial Control

The University shall maintain the highest levels of financial control. In order to ensure the high levels of financial control, the finance department will conduct a self-review through the use of the following measures:

- a) Internal Control Questionnaire;
- b) The University Bursar or his designate will ensure the finance regulations, policies and procedures detailed in this manual are operating effectively by performing self-audits twice a year

as follows:

- c) An internal control questionnaire shall be developed to provide a tool for self-auditing of the control and operating procedures defined in this manual;
- d) The internal control questionnaire is a tool to ensure the institution or operation is in compliance with provisions in the manual. This helps to determine the training needs of employees;
- e) The University Bursar shall summarize the key outcomes from the checklist and follow up the actions necessary to ensure compliance.
